Profile

As a dedicated and innovative **React Frontend Developer**, I am passionate about translating complex design concepts into **intuitive, user-friendly interfaces**. With hands-on experience in **React.js, Material UI, and API integration**, I specialize in building **responsive and dynamic web applications**. Committed to writing clean, maintainable code and continuously improving development processes.

Professional Experience

12/2024 – present Pune, India	**React Frontend Developer Intern** • Developed and maintained **React-based web applications** using React.js & Material UI. • Implemented **animated UI components** to enhance user experience. • Integrated **REST APIs** for dynamic data fetching and state management. • Optimized **performance and reusability** of React components. • Collaborated with the team to resolve **bugs and improve the codebase structure**.

Skills

HTML & CSS	JavaScript
React.js	Material UI
Vite	Git (Version Control)
Debugging	REST API Integration
Javascript	C

Languages

• English • Hindi • Bengali
